

## How to Share Your Tinkercad Project

- 1) In Tinkercad - open your Design.
- 2) Click on export.
- 3) Click on .STL.
- 4) Open the Files app on your chromebook
  - a) Hit the magnifying glass
  - b) Click on the blue File folder called Files
- 5) Find your 3D file
- 6) Drag your 3D file to the shared folder called 2021-2022 3D Prints
- 7) Rename your file to your name and one word that describes your project and with the number of the color you want your print to be.

Example of file name:

If my file is a **dog** and I want the dog to be printed in **black**, my file name would

be: **2-Miller-Dog**

Color numbers:

1. White
2. Black
3. Pink
4. Red
5. Purple
6. Orange
7. Blue
8. Green
9. Fluorescent Yellow
10. Yellow
11. Fuchsia
12. Blue
